TRANQUILITY

Participant ID:ASDA24-80118

American Standard

Design Concept Summary

"TRANQUILITY - Home Away From Home

In the adventurous journey of travel, there's nothing quite like having a resort that feels like a second home, where the bathroom serves as a sanctuary for relaxation and rejuvenation. I've delved into research to understand how a bathroom can evoke a homely feeling of TRANQUILITY. With this concept, we've crafted a bathroom space that embraces nature and instills a sense of serenity for our guests. Utilizing natural bamboo materials, we've created a warm and inviting space, accentuated by refreshing green hues.

We've also use traditional lacquer materials to achieve smooth and luxurious surfaces. This material not only enhances durability for bathroom surfaces but also creates captivating light effects, mesmerizing the space.

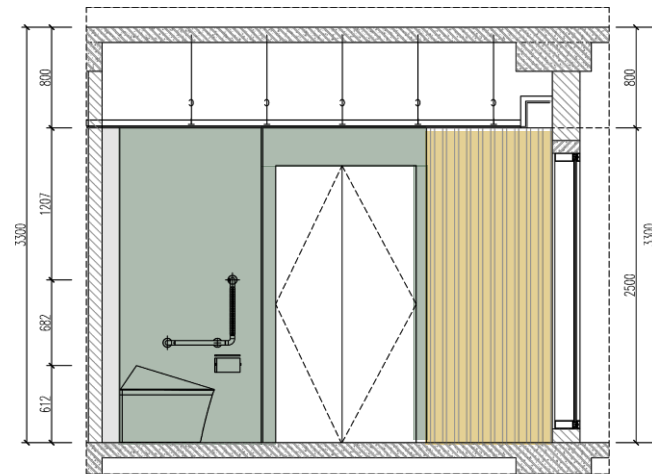

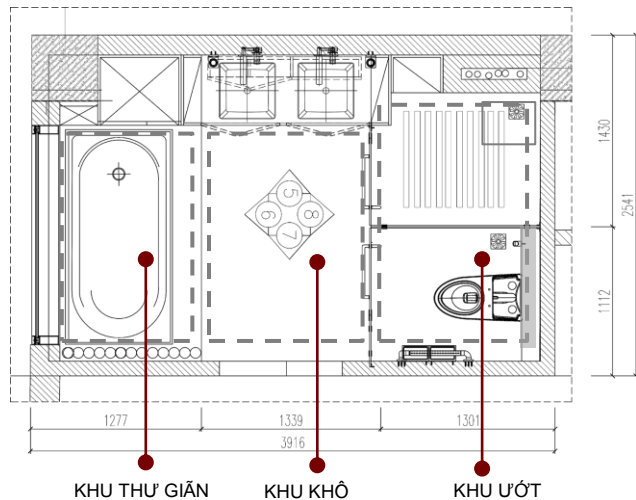

By combining natural bamboo materials with lacquer finishes, we've curated a unique and refined bathroom space, where guests can unwind and experience true tranquility."

Design Visuals: Overview

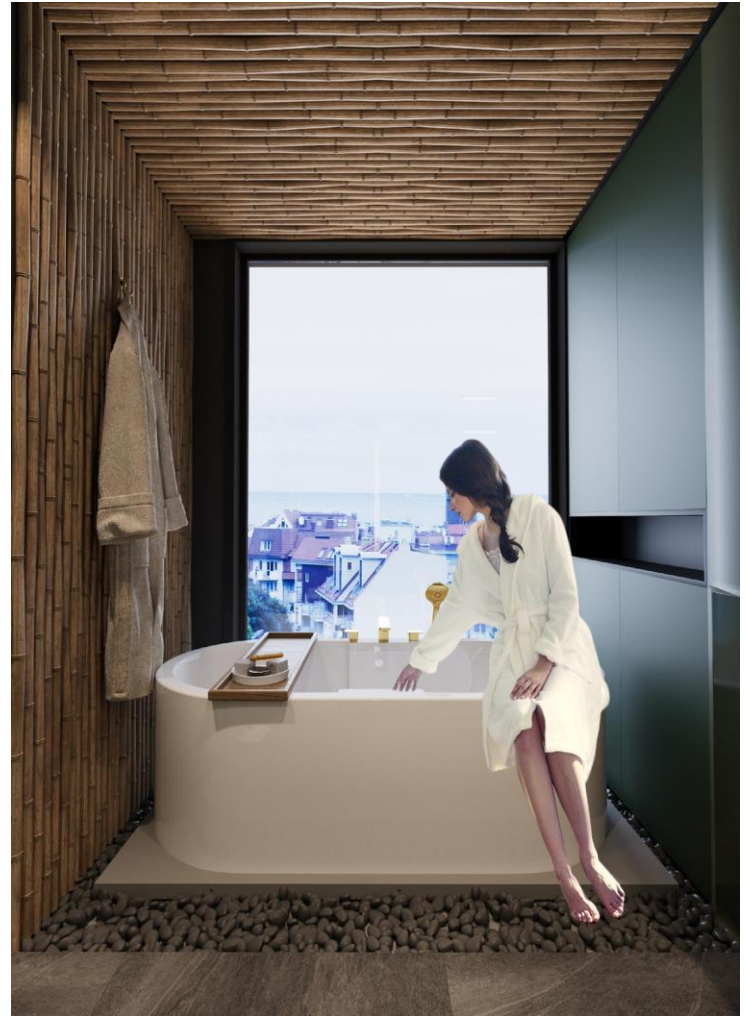

Essentially, the main color is green, which helps create a soothing atmosphere upon guests' arrival. Large tiles are used to reduce grout and prevent slipping. The bathroom is designed to clean itself to maintain cleanliness, and it benefits from natural light exposure. Customers trust the cleanliness and ambiance of this place, and the bathroom offers a pleasant user experience and aesthetic appeal.

-  Antibacterial paint coating
-  Panoramic view
-  Storage area
-  Antiviral glass

Specifications: Colors, Materials and Finishes

American Standard Products Specified

	Product Name	Product Image	Reason for Selection
1	Basins		For convenience in space, the sink is compact in size and has a sleek design, with the ability to stay shiny for a long time and prevent residue buildup and dirt adherence.
3	Grab Bar		The grab bar has high friction to meet the needs of elderly guests who can easily grip it.
4	Hygiene Spray		High-pressure spray faucet for effective dirt removal
6	Shower Toilet		The toilet is indeed the most frequently used fixture in a bathroom, and it's also a hotspot for bacteria. Choosing an antibacterial toilet bowl that conserves water helps keep the bathroom space clean and sparkling.

American Standard Products Specified

	Product Name	Product Image	Reason for Selection
7	Shower Mixer		Bathroom fixtures help reduce space when users feel comfortable and relaxed. I have chosen gold-plated products to create a luxurious space from the fixtures.
8	Deck Mount Bath & Shower Mixer		
9	Bath & Shower		
10	Rain Shower Heads		
11	Showering Components		
12	Basin Mixer		

Appendix

Design Story – *Limit to 150 words per answer.*

- What is the inspiration for your design?

Inspired from tranquility to create a relaxing space where every guest feels comfortable, just like home.

- How does the design fulfill the need of the target users?

Ensuring safety and providing full amenities for guests of all ages, from the elderly to children, creating a clean space for every guest to feel environmentally friendly and welcoming.

- How does the design fulfill the design challenge?

The space is divided into functional areas, from dry to wet areas, to cater to every guest's needs. Additionally, materials are chosen to create a friendly atmosphere.

- How does the choice of products contribute to the purpose of the design?

The products selected from American Standard are both convenient in size and practical, offering a contrasting elegance with the materials
