Design Concept

Ban+YOU, or “banyo” is a Filipino term used for bathroom. The design focuses on placing YOU, the user, in creating bathroom design.

Breathe. With the problems arising today, the bustling active lifestyle we have, all we need is a moment to breathe. Seeking an oasis in our own hotel/resort spaces, the new hotel bathroom provides a space for us to take it easy. To be free of concern from the hygienic standpoint. To connect with nature and wellness whilst inside your own space. To relax in a bathroom designed especially for you.
