BATHROOM DESIGN

“POWER NAP”

Participant ID: ASDA24-83259

American Standard

Design Concept Summary

The space is divided into two areas: wet and dry, allowing for comfortable, clean, and dry usage. The sink, bathtub, and shower area are positioned near the glass door to promote drying and effective bacteria elimination. The bathroom maximizes natural light usage.

Relaxing materials such as wood, cream-colored tiles, and glass tiles are used for easy cleaning and maintenance. Glass partition walls efficiently divide the space without feeling cramped, creating an open environment.

The dominant colors are brown and cream, representing relaxation, and combined with green hues for enhanced mental therapy. Additionally, using American Standard products enhances functionality and aesthetic appeal.

Design: Floor Plan and Elevations

The space is divided into two areas: wet and dry, ensuring cleanliness and ventilation.

The bathtub, standing shower, and sink are placed near glass walls to capture sunlight for bacteria elimination and quick drying.

External glass walls are equipped with shades to provide privacy when needed.

Tổng diện tích sàn phòng tắm (m²)

9.6 m²

Design Visuals: Overview

The bathroom space is designed for resort hotels with a focus on mental therapy, health, and relaxation, providing a close connection to nature.

Design Visuals: Full Bathroom

Combine simple effective materials for relaxation. The warm color of wood creates a cozy and intimate space. Glass partitions help expand the room, avoiding feelings of confinement. Additionally, using American Standard fixtures enhances the sophistication and aesthetics of the space.

Design Visuals: Shower Area

The standing shower area uses stone walls, creating a feeling of being immersed in nature.

The bathtub area faces the glass door view, promoting relaxation.

Next to the bathtub, there is a seating arrangement:

- For couples: Enhances romantic ambiance.
- For children: Parents can sit and supervise while bathing their children.
- For business travelers: Provides a place to relax and unwind after a stressful day of work.

Sitting and relaxing or even closing one's eyes in the bathroom is considered a good mental therapy, helping to regain comfort and alertness after stressful work.

Design Visuals: Toilet Area

The toilet area is arranged with partition walls, creating a comfortable and cozy environment for use.

The toilet, a product of American Standard, is clean white in color, making it easy to clean. The floor in this area is equipped with American Standard floor drains, ensuring effective water drainage when needed.

Design Visuals: Basin Area

The sink counter is placed by the glass window, preventing dampness and effectively eliminating bacteria.

Wood material is used to create a warm feeling.

Two sinks and faucets from American Standard are arranged, enhancing the sophistication of the area.

Design Visuals: Optional Images/ Information

The relaxation seating area is located next to the bathtub.

Design Visuals: Optional Images/ Information

The relaxation seating area is located next to the bathtub.

Specifications: Colors, Materials and Finishes

The main materials used are wood, slip-resistant beige tiles, and light-reflecting glass tiles. These materials are easy to clean and maintain, while effectively creating a relaxing and comfortable space. The color palette harmonizes with nature, predominantly featuring brown and beige tones. The addition of greenery enhances the relaxing ambiance of the space.

American Standard Products Specified

	Product Name	Product Image	Reason for Selection
1	Zenistone Floor-Standing Tub BTAS9761		An elegant design featuring rounded curves, suitable for a bathroom space with a relaxing ambiance.
2	Acacia SupaSleek Wall-Hung Toilet 3/4.5 W/ S&C VF-3119B		A well-fitted design, creating comfortable lines for the body. Water-saving technology and gentle closing operation.
3	Neo Modern Vessel Wash Basin WP-F633		Curved lines, suitable for the space, with dimensions that fit well when in use.
4	EasySET Exposed Shower Auto Temperature Mixer with Integrated Rain shower Kit WF-4955		Modern design, water-efficient, providing stable temperature and comfort for users.
5	Wall Mounted Basin Mixer WF-1604		Compact and lightweight design, directly mounted on the wall for easy cleaning, chrome-plated finish for long-lasting shine.

American Standard Products Specified

	Product Name	Product Image	Reason for Selection
6	Handrail D32 100x300 mm Hairline HR-320435-01		Easy and convenient installation.
7	Acacia Evolution Paper Holder K-1387		Simple design, easy to install, and easy-to-clean materials.
8	Floor drain 115 x 115mm AS FD-1150		Easy-to-clean materials, effective drainage, simple design.
9	DuoSTiX™ Hygiene Spray (Chrome/Glossy White) WF-TS28CW		The design fits the design concept, and the strong water jet cleans dirt quickly, making it possible to remove stains in the bathroom easily.
10	Melange Floor Standing Bath Filler Single Lever Mixer WF-6816		The product features a bright chrome coating that provides long-lasting shine.

Appendix

Design Story – Limit to 150 words per answer.

- What is the inspiration for your design?

Today, the bathroom serves not only as a place for personal hygiene but also as a space for emotional release and energy replenishment. Drawing inspiration from the concept of "Power Nap" - a method of body recovery that quickly eliminates fatigue by resting with closed eyes, Bathroom "Power Nap" perfectly meets the need for a short rest for most people who are constantly under work-related stress. Stepping into the bathtub, relaxing the body, then closing the eyes, unwinding, and calming down for 10-15 minutes can effectively restore energy and mental well-being in a short time, facilitating effective mental therapy.

- How does the design fulfill the need of the target users?

The space is divided into 2 areas, wet and dry, allowing comfortable use for individuals, couples, and families. Simple materials and neutral colors create a comfortable atmosphere. The use of glass materials expands the space, while natural light helps eliminate bacteria and odors, creating a pleasant and comfortable bathroom environment. The glass partitions come with hanging curtains to provide privacy when needed. The sanitary equipment is complete, convenient, and easy to use. Slip-resistant tiles ensure safety for children and the elderly.

- How does the design fulfill the design challenge?

The design concept is essential for the current trend of "mental therapy", creating a space for short breaks, relaxation, and psychological stability. The design style follows a healing trend, embracing natural elements, easy accessibility, and providing comfort for users. The materials are easy to source, install, maintain, and clean. Creating a space for "power naps" to quickly regain energy, restore health, and mental well-being. The design is feasible as the materials and equipment are readily available in the market, with simple shapes and lines focused on creating a warm, soulful atmosphere.

- How does the choice of products contribute to the purpose of the design?

In addition to elegant design and durability, American Standard sanitary products are environmentally friendly and eco-conscious, saving energy and water to protect the ecosystem. Some products also have antibacterial properties to protect users' health. They are easy to use, clean, and maintain, with high safety standards. Therefore, choosing American Standard products is a perfect fit for hotel bathroom spaces.
