

A Home to Love A Space for Everyone Design Entry Template

Design Entry Template Guidelines

You will find the following slides in this Submission Template with specific titles and requirements for your submission as indicated below. Total number of your submission should not exceed 13 slides, beginning with (Slide 1: Project Name) and ends with (Slide 13: Appendix).

SLIDE 1:
Project Name

Input a concept title that reflects your idea.

SLIDE 2:
Design Concept

Describe your concept in a nutshell, keep it within 150 words.

SLIDE 3:
Design: Floorplan and Elevations

Organize your drawings to tell your story.

SLIDES 4-9:
Design: Visuals

Present your concept with your renderings.

- Slide 4: Full Bathroom
- Slide 5: Shower Area
- Slide 6: Toilet Area
- Slide 7: Basin Area
- Slide 8-9: Optional Images

SLIDE 10-11:
Specifications: Colors, Materials and Finishes

SLIDE 12:
American Standard Products Specified

List down the products that are used in your design.

SLIDE 13:
Appendix

Elaborate your design story.

Design Concept Summary

The design of this bathroom focuses on usage of multiple generations of family members from grandparents to parents to young children highlighting the user experience on safety and comfort also ensuring the space aesthetically fits the taste of old and young people alike.

The idea of this bathroom is to include functions that serve elderly people such as grab bar and shower bench in addition of the space which can accommodate wheelchair accessibility with a concealing step designed as a drawer for young children to use the sink independently.

Safety and secure for elderly

Wheelchair accessible

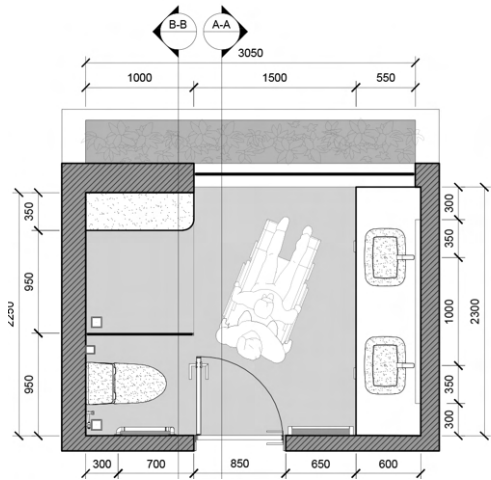

comfortable and ergonomically
designed for young kid

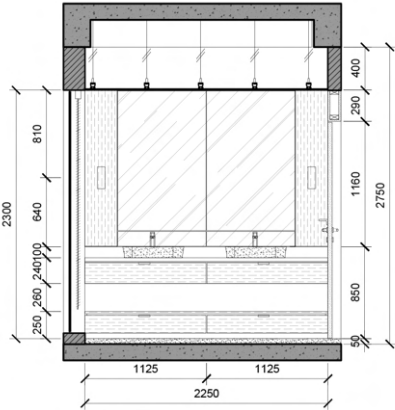

Double basins allow more family
members to use at the same time.

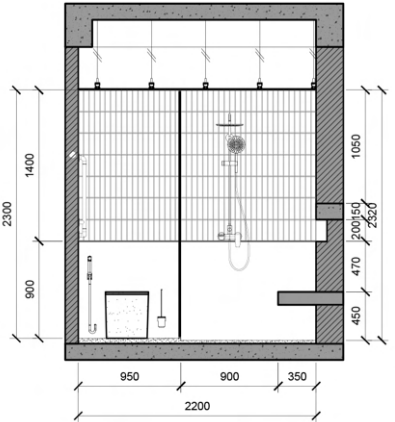

Design: Floor Plan and Elevations

FLOOR PLAN

ELEVATION A

ELEVATION B

Design Visuals: Full Bathroom

Using American standard products for its clean, sleek and contemporary design allowing the natural sunlight shines on the simplistic yet purposeful design of the wood cladded basin area to harmoniously co-exist with porcelain tile and terrazzo in the shower and toilet area

Design Visuals: Shower Area

Even if the elderly still have the ability to walk, it is important to consider wheelchair use and the possibility of a caregiver when sizing spaces. A well-designed and spacious wheelchair-accessible bathroom also improves circulation, preventing falls and injuries.

Design Visuals: Toilet Area

Grab bar ,it increases stability ,comfort and confidence when sitting on the toilet for elderly

this toilet design allows for quick and easy cleaning and maintaining while ensuring a friendly user experience for old and young people

Design Visuals: Basin Area

Often the focal point in bathroom there is a vanity. And this minimal and functional design suits everyone style and personality for multi-generational bathroom.

Double basins allow two or more family members to comfortably use the bathroom at the same time.

Information**

Specifications: Colors, Materials and Finishes

A mostly neutral bathroom color scheme help establish an atmosphere of serenity and relaxation.

Using white color on ceiling and upper wall to create a clean look , but pair these with same neutral beige color on lower wall and basin area to make the effect energizing and uplifting.

Specifications: Colors, Materials and Finishes

Using two materials in Shower area. For Upper half of wall I choose white Mosaico tile for drawing more attention to the upper wall.

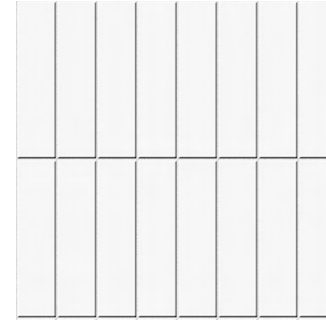

Lower wall and flooring material I use Beige Terrazzo with honed finish since it's a lot less slippery, it's also help this area appeals more spacious .

Basin area have known as a dry area in bathroom so I use marble on counter top and natural wood on drawers along with wall cladding beside the mirror to match with each others.

On basin area flooring I use matte ceramic tile to divide wet and dry area in bathroom.

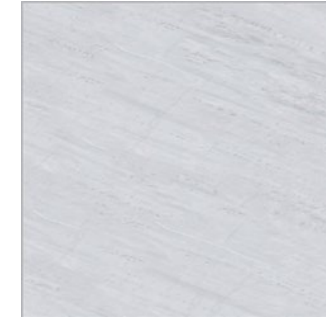

White Mosaico Tile

3.Stainless Steel

5.Grey Ceramic Tile with Matte Finish

2.Beige Terrazzo with Honed Finish

4.Oak Wood

6.White Marble

Tankless

Appendix

Design Story – Limit to 150 words per answer.

- What is the inspiration for your design?

The inspiration of this bathroom design came from the observation of everyday bathroom in most typical high mass housing for mostly they aren't user friendly for elderly and young children while also on making connection for family members in the house. The inspiration is find a solution for this common problem to make the everyday use of bathroom is more comfortable and enjoyable for every age while ensuring a sustainable looks and function of the space.

- How does the design fulfill the need of the target users?

Multi generational living under one roof with elderly (60-70 years) , parent (30-40 years) and young kid (5-10 years) , they need more functional design for individual need.

- How does the design fulfill the design challenge?

The challenge is to find the right solutions to usage of elderly people young children in the bathroom while making sure the aesthetic design suits all generation of the family members. This bathroom design address the problem by placing grab bar and shower bench for elderly member and concealing step for young children while using oak wood clad texture as hierarchical point harmoniously co-exist with neutral colors of porcelain tiles and terrazzo floor and wall making the design aesthetically friendly to all users.

- How does the choice of products contribute to the purpose of the design?

The products choice is perfectly fit the design and the idea of the multi-generational bathroom for its minimalistic yet modern looks, cleanliness intergrading well with the material choice and overall mood of the interior while products themselves are well designed and super friendly for user experience making the space is truly a home to love.
