Design Entry Template

American Standard

Design Entry Template Guidelines

You will find the following slides in this Submission Template with specific titles and requirements for your submission as indicated below. Total number of your submission should not exceed 15 slides, beginning with (Slide 1: Project Name) and ends with (Slide 15: Qualification Checklist).

SLIDE 1:
Project Name

Input a concept title that reflects your idea.

SLIDE 2:
Design Concept

Describe your concept in a nutshell, keep it within 150 words.

SLIDE 3:
Design: Floorplan and Elevations

Organize your drawings to tell your story.

SLIDES 4-10:
Design: Visuals

Present your concept with your renderings.

- Slide 4: Overview
- Slide 5: Full Bathroom
- Slide 6: Shower Area
- Slide 7: Toilet Area
- Slide 8: Basin Area
- Slide 9 & 10: Optional Images/Information

SLIDE 11-12:
Specifications: Colors, Materials and Finishes

SLIDE 13:
American Standard Products Specified
List down the products that are used in your design.

SLIDE 14:
Appendix
Elaborate your design story.

SLIDE 15:
Qualification Checklist
Before submission, review this list.

Sensory Serenity

Multi-Generational Bathroom

Participant ID: ASDA26-41833

American Standard

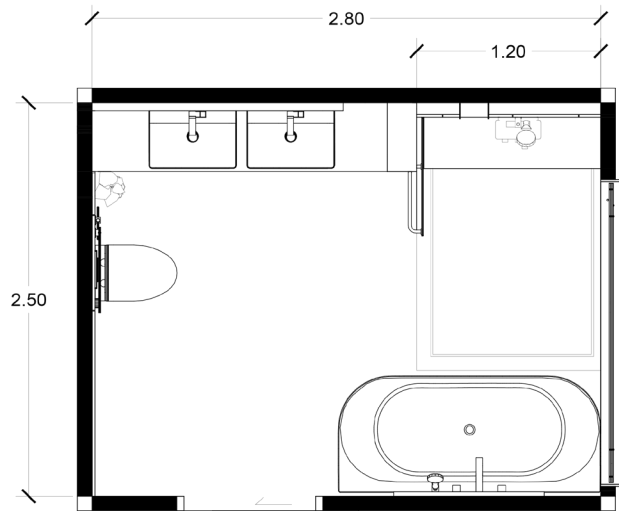

Design Concept Summary

Sensory Serenity redefines a compact bathroom as a shared retreat for a three-generation family through a **Warm Minimalist** concept. Warm tones and natural textures create a sense of calm, relaxation, and emotional connection for users of all ages. The design carefully responds to different life stages—from softly rounded edges and concealed step features that encourage learning and ensure safety for children, to a spa-like atmosphere for parents, and seamlessly integrated built-in seating that offers comfort without alienation for the elderly.

The space is developed under a seamless **Universal Design approach**, utilizing a **space-saving sliding door for easy access**. A skylight is incorporated to bring in natural light and reduce energy consumption. The design features **American Standard's Acacia SupaSleek** sanitaryware, **reflecting contemporary design with hygiene technologies for easy maintenance** and water-saving features, supporting a sustainable **and healthy** lifestyle for the modern family.

Design: Floor Plan and Elevations

The layout optimizes the 7 sqm. space using a Seamless Universal Design approach.

[2.80 x 2.50] 7 sqm.

**Total Bathroom Area
in sqm (including wall
& columns)**

7 sqm.

Design Visuals: Overview

"Sensory Serenity" extends the home's "Warm Minimalist" aesthetic directly into the bathroom, creating a cohesive and inviting retreat.

Seamless Transition: A wide, barrier-free sliding door connects the bathroom effortlessly with the adjacent living space, ensuring easy access for all generations, including wheelchair users.

Atmosphere: The overview perspective highlights the harmonious blend of warm wood textures, large-format stone tiles, and integrated ambient lighting. This composition establishes a calm, spa-like environment that feels spacious and welcoming despite the compact footprint.

Design Visuals: Full Bathroom

The renders highlight the custom pull-out step in action, empowering children to use the Acacia SupaSleek Vessel basins independently while tucking away neatly to maintain a clutter-free look. A skylight bathes the interior in soft natural light, highlighting rich wood and stone textures to create a calming, spa-like atmosphere for parental relaxation. Furthermore, the layout showcases the integrated shower seat and accessible zones, confirming a safe and dignified experience for elderly family members.

Design Visuals: Shower Area

This zone is designed as a dual-purpose retreat. The bathtub is positioned next to a large window, allowing users to soak while enjoying a connection with nature—creating a perfect spa-like escape for parents. The shower area features a built-in bench that blends seamlessly with the wall, providing a dignified and safe seating option for the elderly. Additionally, it is equipped with the EasySET Auto Temperature shower, which maintains a constant water temperature to prevent scalding, ensuring safety for all family members.

Design Visuals: Toilet Area

Hygiene Meets Accessibility
The area prioritizes cleanliness with the Acacia SupaSleek Wall-Hung Toilet, which keeps the floor clear for easy maintenance. A strategically placed foldable grab bar supports the elderly and retracts fully to ensure unobstructed wheelchair maneuverability.

Design Visuals: Basin Area

Shared Space, Independent Use The vanity area serves as a family hub, featuring twin Acacia SupaSleek Vessel basins (600mm) with a spacious, thin-edged design to minimize splashing. A custom pull-out step empowers children to use the basin independently, retracting completely to maintain a clean aesthetic. Soft lighting behind the mirror adds to the warm, inviting atmosphere..

Design Visuals: Optional Images/ Information

The diagrams illustrate how the space adapts to different statures. Specifically, the custom pull-out step elevates a child's reach to the standard basin height (850mm), while the open vanity design ensures ample knee clearance for wheelchair users.

Specifications: Colors, Materials and Finishes

The palette is curated to evoke calmness and warmth. The base tone of Soft Greige creates a spacious, soothing canvas, avoiding the clinical feel of pure white. Natural Oak introduces texture and organic warmth, grounding the space in nature. Accents of Champagne Gold add a layer of refined, delicate luxury, while touches of Muted Green bring a biophilic element that rejuvenates the senses.

Specifications: Colors, Materials and Finishes

The material palette is carefully curated to balance aesthetics with safety and sensory comfort.

American Standard Products Specified

	Product Name	Product Image	Reason for Selection
1	Acacia Evolution High-Spout Basin Mixer (Side Lever)		The side-lever design provides ergonomic control, making it effortless for children and the elderly to operate. Its high spout perfectly accommodates the vessel basin, ensuring ample space for comfortable hand washing.
2	Acacia SupaSleek Vessel 600mm Single-Hole		The 600mm width minimizes water splashing, keeping the countertop dry and safe. Its sleek, thin-edged design enhances the "Warm Minimalist" aesthetic, while the single-hole configuration ensures easy cleaning and hygiene maintenance.
3	Acacia SupaSleek Wall-Hung Toilet		The wall-hung design eliminates dirt traps and clears floor space for easy cleaning. It features "Double Vortex" flushing technology for superior hygiene and a compact profile that visually expands the small bathroom.
4	EasySET Exposed Shower Auto Temperature Mixer with Integrated Rainshower Kit (3-Way)		This system prioritizes safety with "Auto Temperature" control to prevent scalding, offering peace of mind for families. The intuitive push-button interface and integrated rain shower deliver a spa-like experience that is accessible to all users.

Appendix

Design Story – Limit to 150 words per answer.

- What is the inspiration for your design?

The core inspiration is "Sensory Serenity," drawing from the calming influence of nature and the warmth of family bonds. We aim to transform a compact functional space into an emotional retreat. The "Warm Minimalist" aesthetic uses natural textures, soft tones, and skylight illumination to create a sanctuary that soothes the senses. This design intends to foster a deep emotional connection and provide a peaceful pause for family members amidst their busy urban lives.

- How does the design fulfill the need of the target users?

The design caters to a multi-generational family with empathy. For the Elderly (60-70), a dignity-focused design features seamless built-in seating and non-stigmatizing accessibility. For Parents (30-40), the sophisticated ambiance offers a spa-like escape for relaxation after work. For Children (5-10), features like rounded edges and concealed steps promote safe, independent learning. The inclusive layout ensures equitable use and comfort for all ages without compromising on style.

- How does the design fulfill the design challenge?

To address the spatial constraint of 6-7 sq.m., the layout employs a "Seamless Universal Design" approach. A space-saving sliding door maximizes usable floor area, allowing wheelchair access without obstruction. The zoning is optimized to reduce clutter while maintaining an open, airy feel. This design demonstrates that limited space is not a barrier to elevating quality of life, proving that smart spatial planning can successfully merge functionality with high-level aesthetics.

- How does the choice of products contribute to the purpose of the design?

The selection prioritizes hygiene, safety, and ease of use. The Acacia SupaSleek Vessel 600mm Single-Hole basin serves as a delicate, sophisticated centerpiece that elevates the "Warm Minimalist" aesthetic. Paired with Acacia SupaSleek sanitaryware, the design ensures easy maintenance and hygiene for the family. Crucially, the EasySET shower system provides "Auto Temperature" control, preventing scalding and ensuring a safe, consistent shower experience. These American Standard products collectively support a sustainable and healthy lifestyle for the entire family.

- **Before you submit, let's check that everything's in place**

A friendly reminder to check that your entry follows the required template and is complete!

- Please make sure the Participant ID is clearly indicated on Slide 1 – remember, only one participant per entry (no group work) and one submission per login account.
- Ensure your entry is an original design created by you.
- The size of the bathroom in your design should fall within the allowable range (6-7sqm).
- Please confirm that you are not a relative of any LIXIL employees or closely related persons of LIXIL employees or judges.
- Ensure that you reside within the participating countries and are attending studies full-time at a university or educational institution in the specified countries.
Participating countries include: ANZ (Australia and New Zealand), Indochina (Cambodia, Laos, and Myanmar), Indonesia, Philippines, Thailand, and Vietnam.
- Lastly, only American Standard products should be used in your renderings.

Let your ideas transform
everyday routines into
meaningful experiences!
