Design Entry Template Guidelines

You will find the following slides in this Submission Template with specific titles and requirements for your submission as indicated below. Total number of your submission should not exceed 15 slides, beginning with (Slide 1: Project Name) and ends with (Slide 15: Qualification Checklist).

SLIDE 1:
Project Name

Input a concept title that reflects your idea.

SLIDE 2:
Design Concept

Describe your concept in a nutshell, keep it within 150 words.

SLIDE 3:
Design: Floorplan and Elevations

Organize your drawings to tell your story.

SLIDES 4-10:
Design: Visuals

Present your concept with your renderings.

- Slide 4: Overview
- Slide 5: Full Bathroom
- Slide 6: Shower Area
- Slide 7: Toilet Area
- Slide 8: Basin Area
- Slide 9 & 10: Optional Images/Information

SLIDE 11-12:
Specifications: Colors, Materials and Finishes

SLIDE 13:
American Standard Products Specified
List down the products that are used in your design.

SLIDE 14:
Appendix
Elaborate your design story.

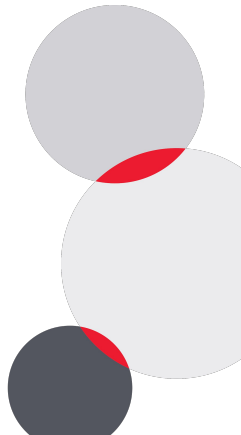

SLIDE 15:
Qualification Checklist
Before submission, review this list.

Design Concept Summary

Sage Sanctuary is a family-centered bathroom designed for intergenerational harmony. Responding to the needs of elderly, parents, and young children, the concept creates a safe, warm retreat within a compact 6–7 sqm footprint.

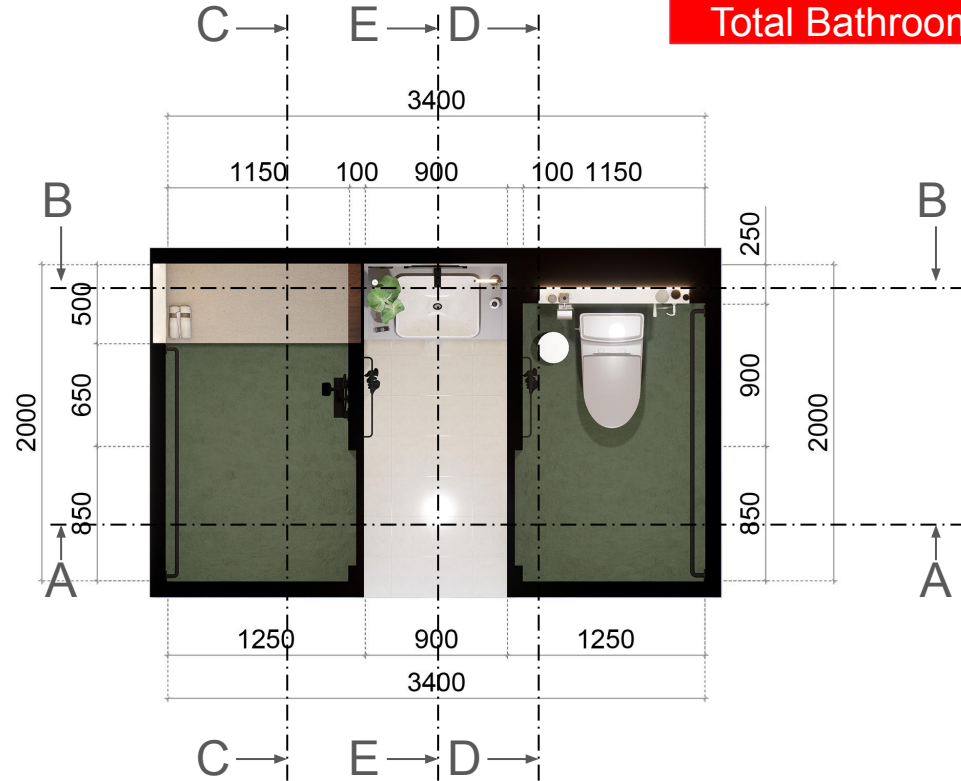

The design is organized into three clear zones: an accessible wet-room shower, an open vanity hub, and a private toilet nook. This zoning prevents accidents and allows simultaneous use. Key innovations include a Primary seat for secure bathing. A palette of sage green tiles and natural wood evokes calm and connects users to nature, supporting daily well-being.

Sage Sanctuary moves beyond mere functionality to become a nurturing space that dignifies care, fosters independence, and turns daily routines into moments of quiet connection and comfort for every family member.

Specifications : Colors, Materials and Finishes

Color Strategy: Warm & Natural

Sage Green: Soothing, natural calm.

Warm Browns: Organic, tactile comfort.

Soft White & Veined Stone: Light, airy, natural texture.

Warm Grey Concrete: Earthy, stable foundation.

Result: A harmonious, nature-inspired palette that feels both uplifting and deeply comforting—turning the bathroom into a serene family retreat.

Legend

Walls: Sage green tile for calm.

Surfaces: Warm wood tones for comfort.

Floor: Textured concrete for secure footing.

Accents: Bright white to lift and expand.

A tactile, natural palette that makes the bathroom a safe haven for all ages.

Appendix

1. What is the inspiration for your design?

Our inspiration is the calm, restorative power of nature and the rituals of family care. We envisioned a bathroom not as a utilitarian space, but as a "Sage Sanctuary" a warm, grounding retreat where every detail, from the soothing sage green palette to the organic materials, fosters well-being and connection for a multi-generational family living in harmony.

2. How does the design fulfill the need of the target users?

The design addresses all users through safe, zoned functionality. For the elderly and children, a fixed teak shower seat and strategically placed grab bars ensure secure bathing. Parents benefit from an efficient open vanity for supervision and a dual-shower system for flexible use. Separated wet and dry zones prevent slips, while a warm, natural palette creates a calming environment for all, turning care into dignified, shared moments.

3. How does the design fulfill the design challenge?

The design meets "Inspiring Everyday Living" by solving real-life challenges within a 6-7 sqm footprint. It maximizes space through clear zoning (Shower, Labo, Toilet) and space-saving doors. The layout ensures safety, accessibility, and simultaneous use for three generations. By integrating warmth, nature, and intuitive functionality, it transforms a compact bathroom into a daily retreat that elevates routine into ritual.

4. How does the choice of products contribute to the purpose of the design?

The selected American Standard products deliver seamless performance aligned with our aesthetic and functional goals. The Acacia SupaSleek suite (toilet, vessel sink, mixer) offers clean, minimalist lines that enhance the serene atmosphere. The EasySET exposed thermostatic shower provides precise, safe temperature control—vital for elderly and child safety while its integrated rainshower and optional handheld support flexible, accessible bathing for every family member.

- **Before you submit, let's check that everything's in place**

A friendly reminder to check that your entry follows the required template and is complete!

- Please make sure the Participant ID is clearly indicated on Slide 1 – remember, only one participant per entry (no group work) and one submission per login account.
- Ensure your entry is an original design created by you.
- The size of the bathroom in your design should fall within the allowable range (6-7sqm).
- Please confirm that you are not a relative of any LIXIL employees or closely related persons of LIXIL employees or judges.
- Ensure that you reside within the participating countries and are attending studies full-time at a university or educational institution in the specified countries.
Participating countries include: ANZ (Australia and New Zealand), Indochina (Cambodia, Laos, and Myanmar), Indonesia, Philippines, Thailand, and Vietnam.
- Lastly, only American Standard products should be used in your renderings.
