

Inspiring Everyday Living

Design Entry Template

Design Entry Template Guidelines

You will find the following slides in this Submission Template with specific titles and requirements for your submission as indicated below. Total number of your submission should not exceed 15 slides, beginning with (Slide 1: Project Name) and ends with (Slide 15: Qualification Checklist).

SLIDE 1:
Project Name

Input a concept title that reflects your idea.

SLIDE 2:
Design Concept

Describe your concept in a nutshell,
keep it within 150 words.

SLIDE 3:
Design: Floorplan and Elevations

Organize your drawings to tell your story.

SLIDES 4-10:
Design: Visuals

Present your concept with your renderings.

- Slide 4: Overview
- Slide 5: Full Bathroom
- Slide 6: Shower Area
- Slide 7: Toilet Area
- Slide 8: Basin Area
- Slide 9 & 10: Optional Images/Information

SLIDE 11-12:
Specifications: Colors, Materials and Finishes

SLIDE 13:
American Standard Products Specified
List down the products that are used in your design.

SLIDE 14:
Appendix
Elaborate your design story.

SLIDE 15:
Qualification Checklist
Before submission, review this list.

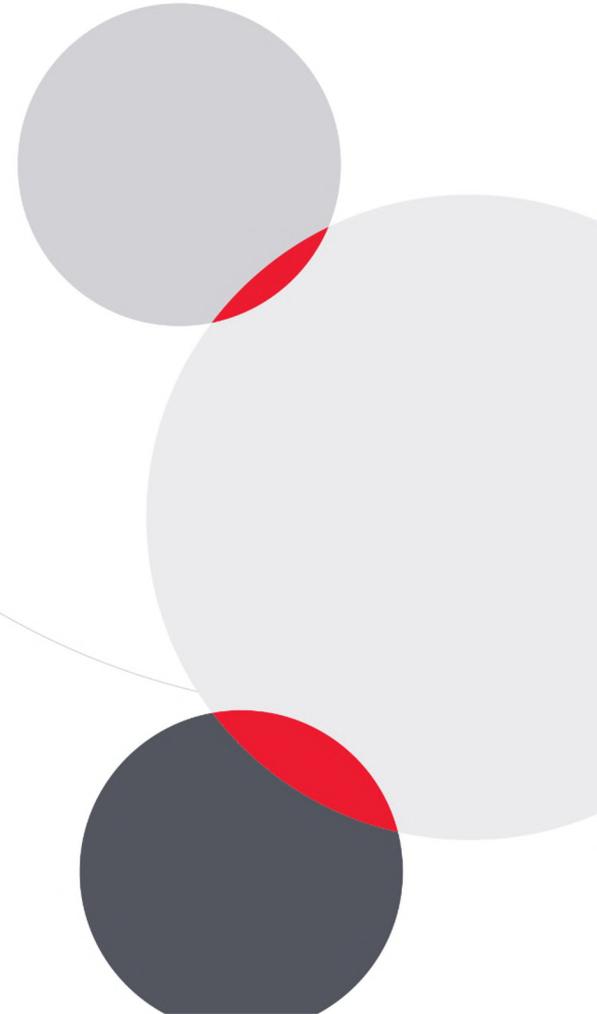

Bathroom Retreat

Living with Nature

ASDA26-21307

American Standard

Design Concept Summary

This bathroom design adopts a **bathroom retreat** concept, creating a calming atmosphere that blends harmoniously with the surrounding environment. The space is designed not only as a functional area for daily hygiene, but also as **a place for relaxation and energy restoration** after daily activities. The presence of greenery, natural wood and stone materials, along with the use of natural lighting, enhances the open and soothing ambiance, evoking the feeling of being in a private retreat.

The layout is designed to be inclusive and **safe for all ages**, from children to the elderly. Wet and dry areas are clearly defined and **can be used simultaneously** without disturbing one another, while still **maintaining comfort and privacy** for every user.

American Standard Products Specified

	Product Name	Product Image	Reason for Selection
1	Acacia Evolution Shower Toilet 305mm (with Auto Seat & Cover)		<ul style="list-style-type: none"> To enhance everyday hygiene and comfort with an integrated seated cleansing system To support multigenerational use through adjustable and automated features that reduce physical effort
2	Signature Vessel		To provide easy-access countertop washing for users of all ages, with a soft square shape that balances modern aesthetics and practical function in a family bathroom.
3	Signature Single Hole Extended Basin M (Polished Cool Sunrise)		<ul style="list-style-type: none"> To provide smooth and intuitive water control with a single-lever mixer that supports quick, comfortable hand washing To enhance hygiene and practicality with water-saving and low-lead construction, promoting healthier daily routines in a busy family bathroom.
4	EasySET Exposed Auto Temperature Mixer with Integrated Rainshower System 3-way Cool Sunrise		<ul style="list-style-type: none"> To provide intuitive and safe temperature control with an auto temperature mixer, reducing the risk of scalding To enhance everyday comfort through an integrated rainshower system and 3-way water flow options that support varied user preferences.

American Standard Products Specified

	Product Name	Product Image	Reason for Selection
5	Floor drain 115 x 115mm AS		To provide efficient water drainage and easy maintenance for everyday family use. Its durable construction ensures hygiene and long-term reliability, while the simple square design integrates seamlessly with the bathroom's minimalist.
6	Concept Square Robe Hook (Polished Cool Sunrise)		To provide convenient, accessible hanging space for towels and clothing in everyday family use. It's simple, square design enhances functional organization.
7	Upturn Safety Grab bar		To enhance daily comfort and support for elderly users, providing stable handholds to reduce slip risks. Its sturdy design integrates seamlessly with the bathroom's functional layout, reinforcing safety without compromising the minimalist.
8	Safety Grab Bar untuk mandi		This safety grab bar is selected to improve daily comfort and stability for elderly users in the shower and bathing area. It provides secure support to reduce slip risks.

American Standard Products Specified

	Product Name	Product Image	Reason for Selection
9	Concept Round Tempat Tissue dengan Cover		To provide convenient and hygienic access to toilet tissue for all family members. Its round, covered design helps keep tissues clean and protected.

Appendix

Design Story – Limit to 150 words per answer.

- What is the inspiration for your design?

The design is inspired by the idea of a private retreat—a space where users can momentarily disconnect from daily stress and reconnect with nature. The integration of greenery, natural materials, and daylight creates a seamless relationship between indoor and outdoor spaces. Nature is not treated as decoration, but as an essential element that supports relaxation, well-being, and balance. The concept Living with Nature reflects a lifestyle where everyday activities, such as bathing, become a restorative ritual rather than a routine task.

- How does the design fulfill the need of the target users?

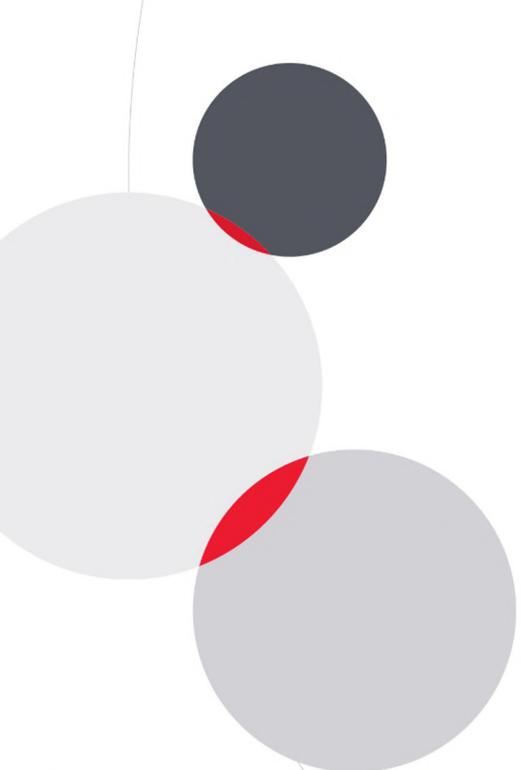

The design responds to the diverse needs of elderly users, parents, and young children through an inclusive and family-oriented layout. Clear separation between wet and dry zones allows simultaneous use, supporting busy family routines while maintaining comfort and privacy. Safety is prioritized with non-slip flooring, adequate circulation space, and support elements suitable for elderly users and children. Fixtures are positioned at accessible heights to accommodate different age groups.

- How does the design fulfill the design challenge?

Within a limited area, the design addresses real-life residential challenges by maximizing spatial efficiency without compromising comfort. The design prioritizes everyday usability, safety, and emotional comfort, rather than relying on decorative excess. By combining functional planning with a calming, nature-inspired atmosphere, the bathroom demonstrates a thoughtful solution that improves daily living while remaining feasible and realistic for implementation in a typical family home.

- How does the choice of products contribute to the purpose of the design?

The selected products support daily comfort, safety, and well-being for users of all ages. Ergonomically designed sanitary ware ensures ease of use for elderly users and children, while maintaining comfort for adults. Products are chosen not only for aesthetics, but for durability, hygiene, and long-term usability in a residential setting. The minimalist design with gold-toned metal finishes also blend seamlessly with the nature-inspired atmosphere of the bathroom design.

- **Before you submit, let's check that everything's in place**

A friendly reminder to check that your entry follows the required template and is complete!

- Please make sure the Participant ID is clearly indicated on Slide 1 – remember, only one participant per entry (no group work) and one submission per login account.
- Ensure your entry is an original design created by you.
- The size of the bathroom in your design should fall within the allowable range (6-7sqm).
- Please confirm that you are not a relative of any LIXIL employees or closely related persons of LIXIL employees or judges.
- Ensure that you reside within the participating countries and are attending studies full-time at a university or educational institution in the specified countries.
Participating countries include: ANZ (Australia and New Zealand), Indochina (Cambodia, Laos, and Myanmar), Indonesia, Philippines, Thailand, and Vietnam.
- Lastly, only American Standard products should be used in your renderings.

Let your ideas transform
everyday routines into
meaningful experiences!
